# Deploy Anywhere

On-prem

Secure cloud

Edge

**Trusted Answers:** Responses reference original source documents.

**Access Legacy Knowledge:** Make organizational knowledge easily accessible to users.

**No Information Leakage:** Deploy on private or air-gapped infrastructure to prevent data exposure.

**Easy Information Retrieval:** Quickly find and retrieve data across internal and external sources.

**Identity and Access:** Integrates with existing IAM systems to enforce data access permissions.

**Multi-Language Support:** Seamlessly operates in multiple languages for global users.

**Acronym Dictionary:** Recognizes and interprets industry-specific acronyms and abbreviations.
